REQUEST FOR REFUND (IMPROPER CHARGE OF DEPOSIT ACCOUNT)

I. REFUND REQUEST

This is a request for a refund, with respect to the charge to Deposit Account No. 08-0750, shown on the statement dated December 31, 2003 (see Attachment A), for the above-identified application.

II. FEES CHARGED FOR WHICH REFUND REQUESTED

Applicants request a refund in the amount of \$950.00 charged to the abovereferenced deposit account for a three month extension of time fee.

Serial No. 10/066,519

III. **EXPLANATION OF WHY CONTESTED CHARGE IS IN ERROR**

This Request for Refund is being made because the Office Action Summary set a statutory period for reply at three months from the date of mailing of the communication (see Attachment B). The mailing date was September 30, 2003. Therefore, the shortened statutory period of three months would have been December 30, 2003.

A reply to the Office Action mailed September 30, 2003 was mailed, with a Certificate of Mailing on December 17, 2003 (see Attachment C). A return postcard was date stamped December 17, 2003 from the U.S. Patent and Trademark Office (see Attachment D).

Therefore, because the shortened statutory period set by the Office Action Summary of three months had not expired upon the mailing and receipt of the response, that being December 17, 2003, no extension of time fee was due. Therefore, the three month extension of time fee was incorrectly debited from the deposit account, noted above, and should be refunded thereto, as requested herein.

IV. **MANNER OF REFUND**

Please make the requested refund by crediting Account No. 08-0750 in the amount of \$950.00. If you should have any questions or comments, please do not hesitate to contact the undersigned at (248) 641-1600.

Sir:

In response to the Restriction Requirement dated September 30, 2003, for which the time period to respond extends to December 30, 2003, Applicants elect claims of Group III (Claims 37-46), with traverse.

The Examiner is requested to reconsider the Restriction Requirement since it appears that the subject matter defined within all the groups of claims are similar. Consequently, the field of search for each group should be essentially coextensive. Thus,
